Introduction

University Communications and University Market at Southeast Missouri State University News Bureau distribute a range of materials every year ranging from news releases and publications to advertisements and a range of marketing materials. Individual colleges, departments and offices publish even more material. With the proliferation of materials published on campus, the need for consistency in style and usage is more important than ever.

Please refer to the information in the following pages when preparing text for publication in print, to ensure you are following the official editorial style of Southeast Missouri State University. This guide is a work in progress and will be updated regularly as the need arises. Please feel free to call University Communications at (573) 651-2552 or University Marketing at (573) 651-2509 with any questions you may have concerning University style.

News Dissemination Process

University Communications regularly distributes news releases to the media – radio and television stations, and daily and weekly newspapers – by email and online. Official University news releases are available to news media at <http://news.semo.edu>. University Communications suggests that news about the University be distributed by this office. If you would like information distributed to the media in the form of an official University news release, please contact University Communications at (573) 651-2552 to assist you with this process. University Communications maintains lists of local and regional media contacts and has processes in place for disseminating news to them about the University on a regular and timely basis.

Formatting News Releases

1. News releases distributed by the University Communications must be accurate, grammatically correct and well written.
2. Do not send out a news release with misspelled words. Proofread carefully and **spell check** every story. If you are in doubt about the spelling of a word, look it up.
3. Start all news releases on the news release template. (This is available from the University Communications director.) Use 12-point Times New Roman font.
4. Headlines should be flush left, bold and in 12-point font with the first letter of each major word capitalized.
5. Start story with appropriate dateline after paragraph indent.
 - ie. “CAPE GIRARDEAU, Mo., June 12, 2018 – The Southeast Missouri State University Board of Regents today voted to . . .

or

When Southeast stories originate from another city, modify as follows:

“SIKESTON, Mo., July 20, 2018 – The Southeast Missouri State University Board of Regents today met at Southeast Missouri State University-Sikeston to discuss . . .”

Refer to “The Associated Press Stylebook” for names of major cities that stand along in datelines.

6. The lead paragraph of every story should make reference to “Southeast Missouri State University,” thus tying the story to the University.
7. Follow steps 8 and 9 only when the intent is to distribute hard copy news releases at an event. Following steps 8 and 9 are not necessary for stories to be published only online and distributed to media via email.
8. When news releases will be printed in hard copy format, use “# # #” at the bottom of the final page of a multiple-page story or at the bottom of a single-page story. This signifies the end of the news release. The pound signs “# # #” should be centered as well.
9. Do not distribute any story to media until it has been approved by the University Communications director. The University Communications director must review all stories and will make necessary edits prior to distribution.
10. When copying news releases, the first page of news releases should be copied on University letterhead. Subsequent pages should be copied on plain copy paper.

Style

News writers are expected to be familiar with accepted journalistic style. Please refer frequently to “The Associated Press Stylebook” when preparing stories for release to the news media. Following is a list of some of the most commonly referred to rules. Please refer to “The Associated Press Stylebook” for items not covered here. “The Associated Press Stylebook” may be purchased at Southeast Bookstore.

ie. 1976 was a very good year.
2. When referring to a date within the current year, it is not necessary to state the year. References such as “last year” or “next year” also are adequate without stating the year.
