CURRENT DRUG TRENDS & CHASING THE DRAGON EVENT

CURRENT DRUG TRENDS EVENT

The Southeast Prevention Resource Center is hosting the Drug Enforcement Administration to provide SEMO students, professionals, and community members with information on the drugs that are becoming popular within our community. As our communities are evolving, so are the type of drugs that are being used. This event is intended to help educate our SEMO students, professionals, and community members that may come in contact with any of these drugs or people who maybe using.

CHASING THE DRAGON

In an effort to combat the growing epidemic of prescription drug and heroin abuse, leaders of the FBI and DEA unveiled a documentary aimed at educating the dangers of the addiction. This film that profiles the stories of several people who either abused opiates or had family members become addicts. It profiles the cycle of addiction and looks at the tragic consequences associated with opioid abuse. The documentary also features interviews with medical and law enforcement professionals discussing the effects of the addiction, and how this epidemic is unlike any this country has seen before.
